HASKINS FOR BRONZE METAL SHOP FRONTS

Plan of the Island Windows in Bronze Metal at Messrs. James Walsh's New Premises at Sheffield.
These Windows give 543 feet of frontage, as against 281 feet in the old Premises.

WE are glad to be able to announce that we have been entrusted by the progressive house of JOHN WALSH, Ltd., of Sheffield, with the construction of what will be the largest Bronze Metal Island Window and Arcade Frontage in England. As will be seen by the above Plan the total new frontage is nearly double that of the old and is infinitely more attractive. We also recently constructed a new Island Front for Messrs. MARSHALL, ROBERTS & Co., Ltd., of Camden Town, London, N.W. This was carried out in the same style, Bronze Metal being used with excellent effect.

EDITORIAL NOTES.

GENTLEMEN,

We have decided to publish our second issue of each year in October, instead of December, and trust this will meet with general approval.

We also trust that our supporters will be pleased with the changes introduced in Vol. 45. We ourselves feel that the contents of the Volume do not express a general sameness of character with the issues of former years.

We beg to announce that in future we shall include a section devoted to Reviewing Books and Portfolios of Architectural interest, and though the Reviews will mainly consist of reproductions of the illustrations they contain, a short Editorial Note, will, if necessary, introduce them.

The recent Architectural work of Mr. TEMPLE MOORE will also be a feature in Volume 46, and we here beg to thank Mr. BASIL CHAMPNEYS for his kind help in lending us his drawings for reproduction in the Review of this issue.

EDITOR.

The Classified Edition of Academy Architecture

PUBLISHED IN 22 VOLUMES.

All Handsomely Bound in Imitation Leather.

PUBLIC BUILDINGS. In 5 volumes, price 6/- each nett, 6/6 post free.

Containing Illustrations of Municipal and County Offices, Museums, Théâtres, Concert Halls, Village Halls, Libraries, Baths, Schools, and Fire Stations, etc., by the following Architects : Ernest Runtz, John Belcher, Henry T.
